

## Bagpiper App Installation Instructions

1. Log into your Shopify store with an admin or staff account (with app and channel permissions)
2. Install the [Bagpiper Data Export](#) app by referring to this [video tutorial](#) and the instructions below
  - ***Note: Feedonomics will cover the \$20/month app subscription cost via an automatic monthly billing credit.***

## Instructions

- Click on the “Install” button on the left side of the page

The screenshot shows the Shopify App Store interface for the Bagpiper Data Export app. On the left, the app's name, price (\$20/month), and developer (Prime Infinite) are listed. A large black "Install" button is prominent. The main area features a central graphic with the text "Simplify and Streamline Your Shopify Data Management With Bagpiper" and a preview of the app's interface. To the right, there are smaller screenshots of the app's data management screens. Below the main graphic, a "Highlights" section includes a "Built for your business" badge and a description of the app's benefits.

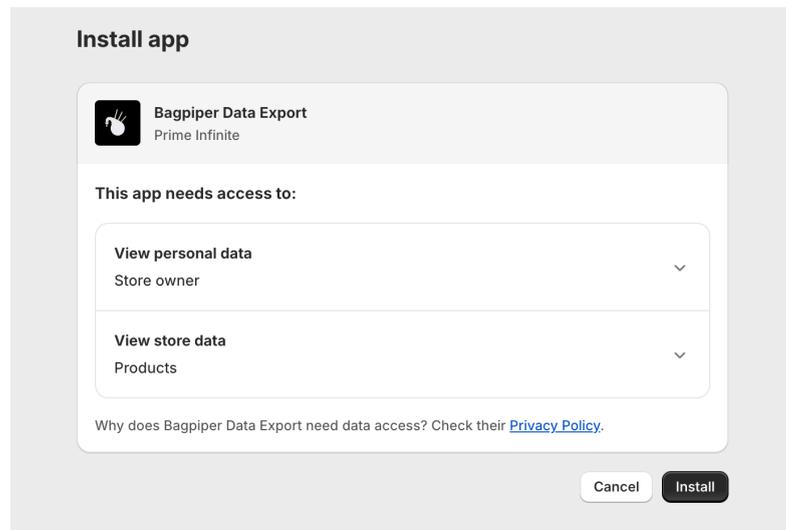

**Highlights**

- ✔ Built for your business  
Use directly in Shopify admin

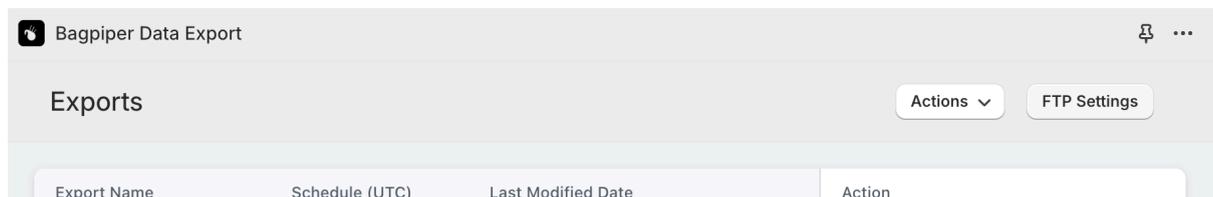

**Simplify and streamline your store data management with Bagpiper Data Export**

Bagpiper Data Export redefines Shopify data management with unparalleled efficiency. Streamline export and automation for a seamless business experience. Experience the convenience of efficient data handling, and optimizing your Shopify store's performance.

- Click the “Install” button on bottom right of the page

- Click the “Approve” button to approve the app subscription
- 3. Send the required credentials to Feedonomics
  - On the Exports tab of the app, click the “FTP Settings” button

- Copy the credentials and respond to Feedonomics via email in the format below to confirm app installation. Please send this as text (not a screenshot).
  - Store Name: (found before '.myshopify.com' in the admin URL)
  - FTP Password:
  - FTP Username:

### FTP Settings
